

case study

Refurbishment brings new life to old building for Apache's HQ.

Furnishings:

- Sebastien Bespoke Boardroom Furniture.
- Cresso Reception Furniture / Meet Seating.
- Sebastien Indulgence Beam Frame System.
- Nomique Quo Workstation & Boardroom Seating
- Flexiform Steel Storage.

We were approached by Apache and their Architect to help look into a phased refurbishment and installation new office furniture. Style did a "Buy Back" scheme purchasing the old furniture and installing new workstations throughout in 4 seamless phases co-ordinate by the Architect.

Each workstation comprised of a non handed 1600mm x 1600mm crescent workstation with desk extension and under desk pedestal complimented by steel storage. Each individual office had the same workstation footprint and had timber storage units to match desk surface.

The IT Department had custom workstations manufactured in the same materials to suit their specific requirements.

case study

The executive office and large boardroom table was a main feature of the building.

Sebastien Perugia finished in Italian Apple was chosen because of its rich colour. Sebastien were also able to provide the timber to have the IT cabinet clad to match in with the table and social units. The table is made up of top tilt table sectional units and has data, power and VGA connections built into fully rotating modules.
