

Even with the growing trend of wireless networked offices, you will be surprised that there will still be a huge number of cables which are required to deliver power and data to the individual desk.

This poses a serious health and safety risk together with projecting an appearance of a disorganised office environment. With our range of cable management solutions, unsecured desk cables can be removed from sight, free up valuable space and organised for ease of future office moves. So welcome to DPG's range of cable management which covers every eventuality, for every size of pocket ideal for ensuring that all cables and wires are stored neatly out of the way.

This unique desk to floor cable management spine offers exceptionally quick and easy installation, plus a large cable carrying capacity and a good aesthetic appearance.

key features

- Spring like expansion from 150mm to 1300mm working length means suitable for various desk set ups
- Cables can be simply fed through the spine in its compressed state
- Available in RAL 9006 silver or translucent spine with silver base, or black with black base
- Easy installation with a single screwed fixing peg locating the top of the spine under the desk
- Weighted "horseshoe" style base with cable exit cut out
- Product weight 1kg

cableway & raceway cable spines

An attractive and practical method of cable containment. The cableway routes cables from floor to desk and provides mechanical protection and strain relief.

key features

- Two compartment structure to allow for power and data cable segregation
- Standard colours available are charcoal grey or silver
- Fixing method – the floor to desk vertical Cableway screws to underside of the desk using a top bracket
- The horizontal raceways screw to the underside of the desk using clip-on fixing brackets (see picture below)
- Segments are detachable for easy re-configuration
- Internal channel allows Wieland connectors through
- Allows conduit up to 25mm diameter to be swiped in
- Weighted base for free standing floor to desk section
- Fixing kit included

All cable spines come complete with a fixing kit.

This unique aesthetic design with an innovative use of fabric is to deal with an everyday problem with a simple and flexible solution that is compatible with many desking systems.

Zip it is a versatile cable management system which is adaptable, lightweight, easy to install & can readily be reconfigured as and when needed. The zip & segregation channels allow all cabling, typically including separate power and data cables, to be concealed yet segregated, whilst the fabric ensures the cables are not restricted.

Most units fix to the underside of the desk and come with fixing bracket and weighted base.

just... zip it!

key features

- 2 different lengths are available within the Zip it range - 690mm and 790mm to cater for different desk heights
- A leg riser version is available on request
- Each unit is made from a high quality nylon, which gives it fabulous strength and flexibility
- Available in grey, black and white (only 790mm)
- Product weight 500g

Size: 690mm
Diameter: 55mm
